Pedro Ricardo Almeida

Full Stack Developer
Santos, São Paulo, Brazil

Summary

I develop high-end software with continuous integration/delivery.

Since 2019, my career has been focused on teaching people and learning with them, helping companies to improve their profits.

Since 2021, I have studied and used Vue, React, Node, their main libraries, and frameworks.

I'm also interested in AWS, Python, and Elixir for my career evolution.

Experience

YBOH
2 years 9 months

Full Stack Developer
December 2021 - Present (2 years 4 months)
Santos, São Paulo, Brazil

I had the oportunity to develop and operate on big projects for Mercedes Benz and other brazilian big companies. Currently I lead a developer team and develop high-end software with continuous integration/delivery.

Front End Intern
July 2021 - December 2021 (6 months)
Santos, São Paulo, Brasil

As an intern, I learned Vue's and Node's basis.

codeBuddy agora é SuperGeeks
IT Instructor
January 2019 - June 2021 (2 years 6 months)
Santos, São Paulo, Brasil

When I was 15 years old, I worked on projects like Co.Lab at RedHat and Positive Agenda at Carrefour's Bank. I also taught programming logic for children and teenagers at codeBuddy

Education

Colégio Santa Cecília

Ensino Médio · (January 2019 - November 2021)
